## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 10-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Springer. Applicant claims in claim 1 a first member with a hole (6 of Springer), a second member (9) on top thereof and in sliding contact and a connecting mechanism (7, 8, 13) and a knob (11).

Claims 1, 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Landmark. The designated parts of Landmark that fit the above description of claimed material are (11), (14), (25). Note the markings of claim 12 are designated (13).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 13-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Springer. Springer shows the claimed material as set forth above except that Springer shows one foot not plural feet. Obviously any part made of plural pieces would be the equivalent of a one piece part and would therefor be obvious in view thereof.

***Allowable Subject Matter***

Claims 8-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
